

Great Profits!

The best ever add-on sale!

Hygiene wipes offer your customers a daily diy cooler clean which in turn gives you massive profits!

Your customer will see the sanitisation team using them and therefore have total confidence.

We believe that a daily hygiene routine compliments the BWCA 13 week service

You look after the inside, your customer looks after the outside of the cooler (it's in their t & c's)

[Click to download power point presentation on how to make great profits](#)

Another great add-on is a cooler mat - A highly absorbent 60 x 90cm mat that your customer can site their cooler on, or indeed be placed under the bottle rack (that always drips!) either as a way-in or as a great profit line, with a choice of 5 colours these top quality mats will soak up the drips and look good also!

The BWCA code for schools and hospitals recommends cooler hygiene on a daily basis, so wipes and CoolerClean hydrogen peroxide spray should be offered, and of course you can make a good margin on both!
